Commercial Structures

Sunstate has designed and built commercial-grade structures that have been proven to stand the test of time and endure the harsh elements in the Queensland area.

We've developed outdoor extensions and built renovation projects for such sites as:

- Schools, universities and colleges
- Corporate offices and other business facilities
- Factories and warehouses
- Shopping centres and parks
- Nurseries
- Primary producers
- Public playgrounds

SUNSTATE D&C
PRO PATIOS, DECKS & CARPORTS

Why choose us?

Sunstate Design & Construct is Queensland's market leader in the design and construction of high quality residential and commercial additions, extensions and community structures.

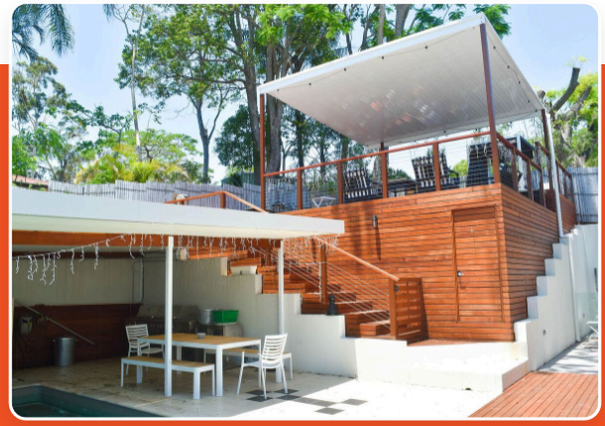
Established in 1992, our team of experienced, fully licensed and insured design consultants, drafting specialists and builders have been looking after the needs of Brisbane and the Sunshine cost since 1992.

Your total solution

Sunstate's one-stop shop service covers everything from the design, supply and installation of framing, roofing, walling and flooring packages to plumbing and electrical work, plastering, painting and waste removal for residential or commercial projects.

Our previous work includes:

- Carports
- Decks
- Patios/Pergolas
- Covered Walkways
- Roofing
- Extensions
- Factory Units
- School Halls
- Shade structures
- Sheds
- Warehouses



Patios & Pergolas

Enjoy the great outdoors under a custom-designed Sunstate patio or pergola. Made from 100% Australian commercial-grade timber and A-Grade Steel, your patio or pergola can be designed to suit your home, your lifestyle and your budget.

Patios and pergolas offer a year round, weather resistant outdoor living and entertainment area that the whole family will enjoy for years on end. They're a fantastic and affordable way to maximise your property's useable living space and make hte most out of your block of land.

Decks

You'll truly enjoy al fresco dining, entertainment or relaxation when you outfit your outdoor area with a Sunstate custom-designed steel-framed deck.

A versatile addition to any home, outdoor pool or commercial property, all Sunstate decks are designed and built from high-quality commercial-grade materials that can stand the test of time and handle our harsh Queensland climate.

No site challenge is too great for our professional team of designers and builders. We can build on virtually any site, from rock platforms to steeply ascending or descending blocks.

Carports

At Sunstate, we want to ensure that you keep your vehicles safe with a carport that's custom-designed to your lifestyle and budget. Our carports come in a wide range of sizes, colours and finishes that will complement your home or workplace, blending in perfectly with the surrounding environment.
